

Power and Knowledge at Your Fingertips

A data-driven EMR system to help you achieve better treatment outcomes and better business results for your practice

**MODERNIZING
MEDICINE**

Electronic Medical Assistant[®] (EMA[™]) – now with the power of the **EMA Network**.

From linking historical treatment data with patient outcomes, to increased income from more accurate billing, EMA lets you improve patient care and the bottom line for your practice.

EMA Network[®]

The Data Revolution

- Over 15 million patient encounters and growing exponentially from more than 3,000 providers
- 100% structured, de-identified and aggregated data
- Native iPad application functions as efficient clinical Electronic Data Capture platform
- Cloud-based technology and adaptive learning

EMA Outcomes[®]

Visualize Patient Data Over Time

Powered by the EMA Network, EMA Outcomes displays, with the simple touch of a button, a visual timeline that tracks a patient's disease or condition.

- Easily determine if conditions are improving or declining
- Visualize clinical trends, treatments and outcomes longitudinally to enable data driven decision-making
- Stop flipping through paper charts

EMA Grand Rounds[®]

3,000 Heads are Better Than One

EMA Grand Rounds instantly analyses and synthesizes clinical data across the entire EMA Network.

- Trend diseases, their outcomes and efficacy of treatments across a continuum to understand what is and is not working for you and your peers
- Gain instant access to disease specific popular treatments in clinical context
- Understand 3rd, 4th and 5th lines of treatment for common and rare diseases

To experience the power of the EMA Network, visit us at modmed.com to schedule your personal demonstration today.

Note: EMA Outcomes and EMA Grand Rounds are currently only available with certain EMA specialties.
