

Telemedicine

A New and Convenient Service for You.

Today, you can do just about anything from your mobile device – including seeing your doctor. With the Telemedicine Solution app, you can get medical advice or treatment remotely. And although it doesn't replace in-office visits, you can enjoy high-tech, virtual care from the comfort of your home or office.

Using this app can benefit you when:

- You're busy and on the go or you can't easily make it to the office because you're housebound or live remotely
- You have a mild skin issue such as a bite, rash, minor burn or acne

Let's get started. Simply download the Modernizing Medicine® Telemedicine app onto your iPhone® or Android® mobile device. Data rates may apply from your mobile carrier.
