

“HERE’S WHAT YOUR PEERS ARE SAYING”

We save around two hours a day while seeing more patients due to EMA’s ease of use and other initiatives. Also, we significantly **increased our revenue per provider** due to EMA helping us be more accurate with our coding and the ability to see more patients.

Steve Meadows, MD
South Palm Orthopedics

I can see 20 new patients and be done an hour to an hour and a half earlier than in the past. If I consider my time saved, that equals to **saving over \$125,000 per year.**

Daniel Stein, MD
Coastline Orthopaedic Associates

Since implementing EMA and Practice Management, payment turnaround times are faster, revenue has increased and error rates have declined. **Having the all-in-one system is a huge timesaver.**

Courtney Hill, Billing Manager
Connecticut Family Orthopedics

The patient record in EMA is comprehensive with documentation needed to support a particular level of service. Most of the time I finalize my notes **by the time the last patient leaves the office.**

Michael Graham, MD
Northwest Spine Center

modmed Kiosk streamlines the check-in process, **saving a few minutes per patient**, which enables us to see more patients than with paper.

Lisa Saunders, Practice Administrator
Jupiter Orthopedics & Sports Medicine

I can write prescriptions in the exam room, verify the patient information, ePrescribe prior to the patient leaving the office and finalize my notes — **all in less time than my previous EHR systems.**

Audley Mackel, MD
Associates in Orthopaedics, Inc.

The **MIPS dashboard in EMA is phenomenal.** EMA is the only EHR system we experienced that is prepared and didn’t require a lot more work or time.

Skyler Fierro, CEO
Innovative Healthcare Business Solutions

EMA has helped increase my practice productivity. A new patient note may take me a couple of minutes and **a follow up note can take 15-30 seconds.**

Steven Gorin, DO
Institute of Sports Medicine & Orthopaedics

EMA comes **equipped with a plethora of diagnoses** to handle the types of orthopedic problems we see. You can pull it out of the box and go, it’s that easy to use.

Tara Salsman, Office Manager
IVCH Medical Group
