

# modmed<sup>®</sup> gBOOST

FOCUS ON YOUR PATIENTS, NOT YOUR OFFICE OPERATIONS

## Are you among the 77% of physicians who spend too much time on office issues and not enough with patients?<sup>1</sup> Or the 96% whose billing processes are inefficient?<sup>2</sup>

Managing the business side of a practice can be overwhelming. But the good news is, we can help make it easier. Working together seamlessly with gGastro<sup>®</sup>, our new modmed<sup>®</sup> gBOOST solution combines our gPM<sup>™</sup> practice management system and Business Operations Services to help manage your billing and streamline your operations.

Join the gGastro users who are leveraging modmed gBOOST to help them save time, gain peace of mind, improve financial visibility and work toward increasing collections.

# What Does modmed **gBOOST** Include?

## High-Tech Practice Management Software

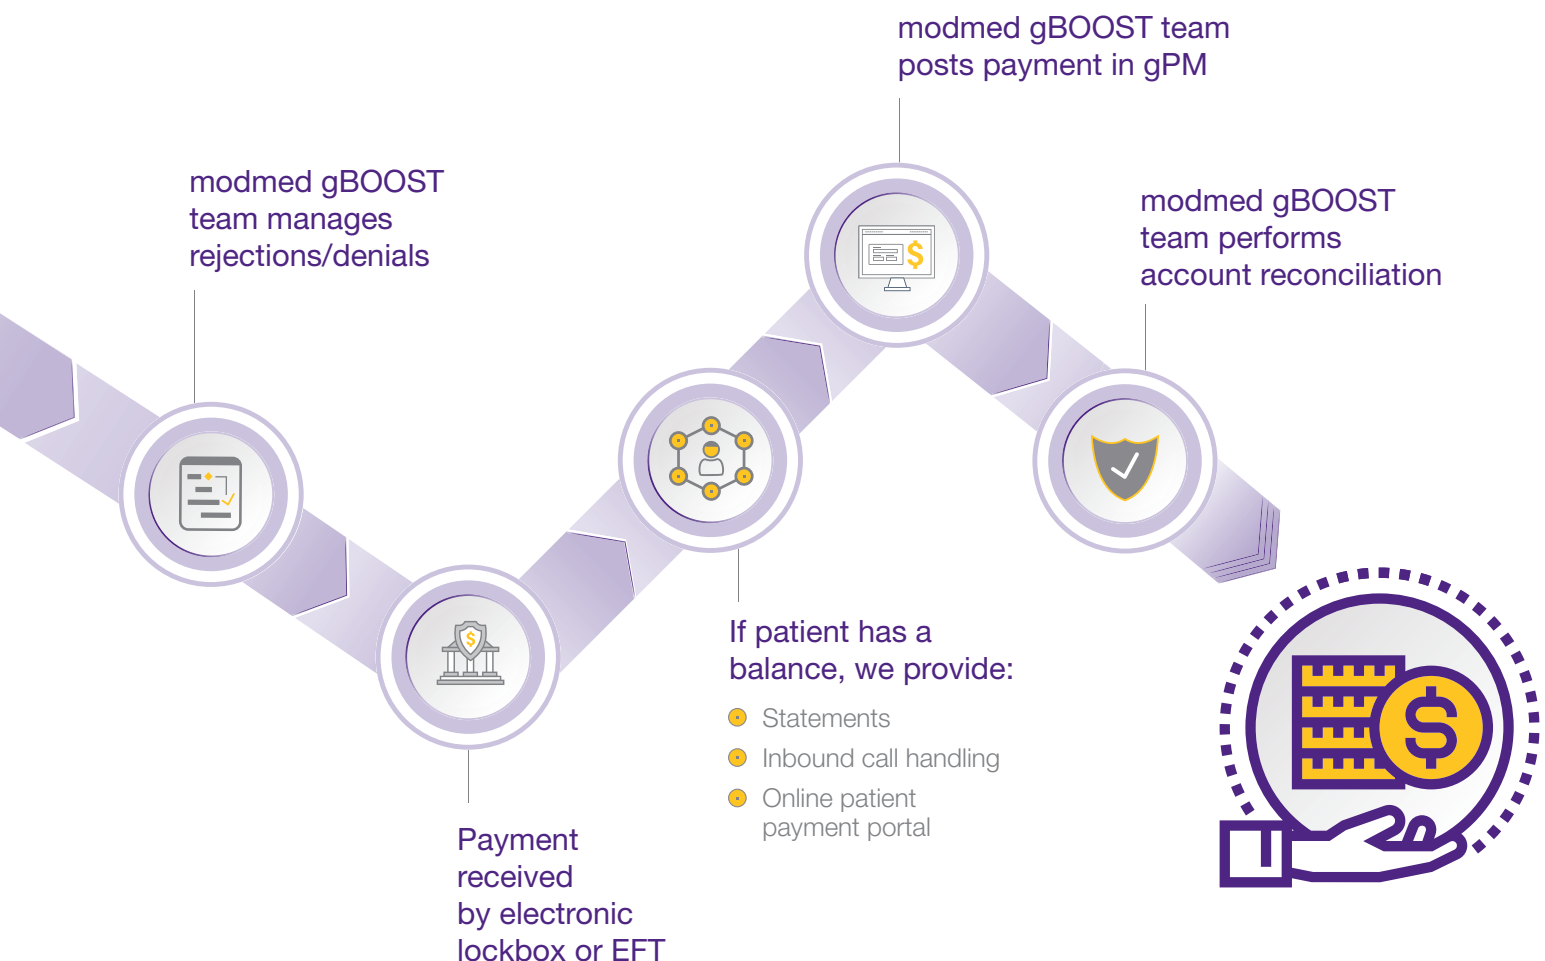

The first step to a healthier practice is having the right technology. When your clinical, financial and operational data are centralized in one easy-to-use system, your entire team can communicate better. Staff can not only schedule appointments and check in patients, but also collect balances, manage documents and view reports in seconds. modmed gBOOST can give you just that—and so much more.

## Here's how it works, from beginning to end:

## High-Touch Business Operations Services

The second component of modmed gBOOST is the right people. Our experienced specialists work as part of your team, managing claims and balances right within gPM so you can see what's going on. Our goal is to keep you informed and in control, so we'll meet with you regularly to talk through your financial health reports. We'll even help you fix process issues and speed up your revenue cycle.

# Ready to **BOOST** Your Practice Performance?

If you're not happy with your key billing metrics—or if you don't even know what they are—you're not alone. In fact, US doctors lose an estimated \$125 billion per year to poor billing practices<sup>1</sup>. That's why practices across the nation are leveraging modmed gBOOST.

Our people, processes and technology come together to help address inefficiencies and get your entire practice running more smoothly. In the end, this can give you more answers at your fingertips, more payments received on time, more happy patients and more time to spend treating them.
