Combined Offerings to Help Provide Simplicity

From our specialty-specific EHR systems to Patient Engagement, Practice Management and more, get an end-to-end solution* that can help streamline your workflow and enhance patient care.

Offering All-In-One Options for Specialty Practices Like Yours

Learn more about what is included in our Solutions, and what they have to offer for your practice, your staff and your patients.

CLINICAL DOCUMENTATION TOOLS

Our specialty-specific, cloud-based, mobile EHR systems come with system-generated notes based on your documentation, built-in suggested coding and more. They are also telehealth-enabled to help you be there for your patients from almost anywhere.

OFFICE AND ADMINISTRATIVE TOOLS

Give your staff an easy-to-use hub for administrative tasks from scheduling to billing with Practice Management and get electronic eligibility, electronic claims submission and Electronic Remittance Advice with a Clearinghouse Interface.

DATA AND ANALYTICS

Unlock actionable insights from your data with administrative, provider and financial analytics reports.

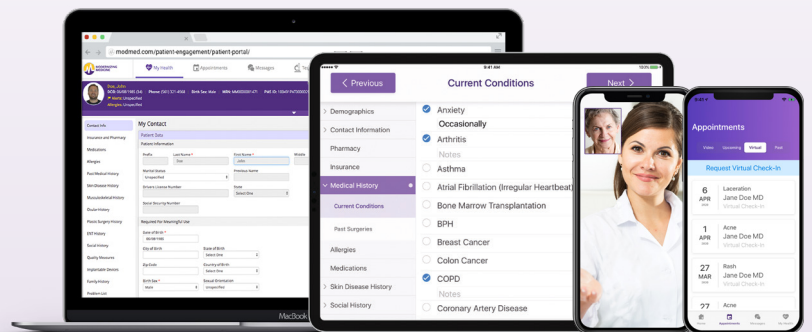

PAYMENT PROCESSING

Offer patients several ways to pay, including contactless payment capabilities and payment plan options.

PATIENT ENGAGEMENT

Empower patients to get more involved in their healthcare with tools that streamline intake, offer access to their information online, provide several methods of communication with your practice and solicit their feedback so you can find ways to better serve them.

*Solutions available for each specialty will vary. Talk with a sales representative to learn what features can be used by your specialty.
